FOR IMMEDIATE RELEASE

OAKSTONE MEDICAL PUBLISHING INTRODUCES SESAP 13 AUDIO COMPANION™ FOR SURGEONS

**Features all new audio interviews with host Dr. John A. Weigelt, MD, FACS, and
provides convenient access to latest clinical surgical knowledge.**

Birmingham, AL, December 18, 2007 – Oakstone Medical Publishing, a leader in Continuing Medical Education (CME) publishing and a Hights Cross Communications company, today announced the launch of the SESAP 13 Audio Companion. The SESAP 13 Audio Companion, complementing the Surgical Education and Self-Assessment Program (SESAP 13) offered by the American College of Surgeons, features a collection of interviews and discussions with distinguished practitioners hosted by Dr. John A. Weigelt, SESAP Course Director. The SESAP Audio Companion covers the key areas of the SESAP syllabus offered by the American College of Surgeons (ACS).

Oakstone Medical Publishing's President, Nancy McMeekin, said: "Oakstone is proud to have once again worked closely with the ACS to produce this dynamic and compelling new edition of the SESAP Audio Companion. Thousands of surgeons have used the SESAP Audio Companion material both to study for their certification and recertification exams and to keep up with the latest clinical thinking and approaches. SESAP 13 Audio Companion has maintained the highest standards of content, format, and genuine 'listenability.'"

According to Dr. Richard A. Lynn, M.D., FACS, R.P.V.I., President, Florida Chapter of the American College of Surgeons, "I am proud to let you know that, in my opinion, if it were not for the SESAP Audio Companion, that at this stage in my life being recertified for the third time, I am concerned that I would not have passed. Dr. Weigelt and the participants brought SESAP alive. In addition to just passing an exam, it allowed me to truly understand many of the concepts that I do not use on a daily basis at this stage in my surgical career. I highly recommend it for anyone preparing for certification or maintenance of certification."

Oakstone said SESAP 13 Audio Companion is available in three leading audio media formats – MP3 Audio Disc, compact disc, and Audiofy portable memory chip for use

with PDAs and Smartphones. “Oakstone’s commitment is to provide surgeons with easy access to critical knowledge,” said Oakstone Senior Vice President and Publisher, Dean Celia. “Our customers constantly tell us that they value and enjoy using their SESAP Audio Companion in their downtime – from commuting or working out at the gym to time between appointments.”

Oakstone said SESAP Audio Companion’s availability on multiple audio media is intended to provide users with maximum flexibility:

- The MP3 audio disc format allows for easy downloading to an iPod or other MP3 player.
- The compact disc format allows listeners to use their traditional portable playing devices.
- The Audiofy chip plugs directly into selected PDAs and Smartphones, and can be connected to any PC or Mac using an included USB-port adapter.

The Oakstone SESAP 13 Audio Companion comes with flash review cards that summarize information from the audio sessions as well as CME quizzes covering the complete program. Oakstone said that listening to the audio content, reviewing the flash cards, and completing the CME quizzes can yield up to 48 *AMA PRA Category 1 Credit(s)*™ over the 17-category program. To order the SESAP 13 Audio Companion, call (800) 633-4743, or visit www.cmeonly.com.

About Oakstone Medical Publishing:

Oakstone Medical Publishing is a major publisher of continuing education materials for physicians, dentists, and allied health professionals. Oakstone works with distinguished medical societies and academic medical centers throughout the United States to provide more than 200 CME programs in nearly 40 specialty areas. Oakstone Medical’s primary product lines include summaries and critiques of journal articles in audio, print, electronic, web, and multimedia formats, as well as video and audio programs that help doctors prepare for board certification and recertification exams and master the latest clinical procedures.
